Vision/Context

Children and Families Service Vision

'Vulnerable children are safeguarded, live within permanent, stable, secure and loving families which provide opportunities for success to enable them to grow and develop into healthy, well rounded adults'

The link between the early intervention and statutory services is important to enable children and families to benefit from the most effective service to meet their needs, moving seamlessly through the service as their needs increase and decrease.

Social Work teams have firmly established a model of Practice Groups/Teams which are led by a Team Manager with a smaller number of Senior Practitioners/Social Workers/Social Care Practitioners.

Denbighshire continues to improve and focus on intelligence led services, including the development of an improved delivery of service to children with additional needs, management development and practice leader development programmes. We would no longer characterise our work in terms of caseload management but rather one of quality assessment and intervention with recognised outcomes.

The post holder, will be expected to provide advice for cases in the field they specialise in and will provide support and guidance to the Social Care Practitioners in undertaking less complex cases. Taking the lead on good practice, they will attain high professional standards in relation to their work.
